CURRENT PROJECTS

FIGERO, *Sole Developer*

A journaling iOS app with bot prompted emotional processing. Building with JavaScript, React Native, Redux, and Firebase, and leveraging the IBM Watson API for emotion detection from text.

BODHI, *Developer (team of 5) bodhi.community*

A purpose driven social networking app for fostering location based community support systems. Built with JavaScript, React, Redux, Material UI, and Firebase. Responsible for the editable profile, forms, and styling.

ANIMAL APPAREL, *Developer (team of 5) animalapparel.herokuapp.com*

An e-commerce store for people and their pets, built with JavaScript, Node, PostgreSQL, React, Redux, & Bootstrap. Responsible for cart functionality/persistence, single product view, styling, and photo editing.

EXPERIENCE

E-Commerce & Sales Associate, Practical Cycle | 2014–2016

Content creation and maintenance (Joomla) for the #1 US Pedego Electric bike dealer.

- Increased site conversion with monthly email marketing campaign
- Drove organic increase in SEO ranking via rigorous metadata overhaul
- Generated high volume sales leads with cross-platform customer story marketing campaign

Administrative Manager, Green Acres Nursery & Supply | 2014–2016

Supervised a staff of up to 90 employees, effectively balancing Human Resources/Administrative roles with operations needs of Northern California's largest independently owned retail plant nursery.

- Scheduled with precision, ensuring consistently appropriate staff levels at peak traffic times
- Streamlined maintenance of employee availability and daily employee roster
- Meticulously prepared payroll (ADP) and other sensitive documents
- Masterfully deescalated and resolved customer issues on the fly
